NeoPix Ultra 2^{TV}

NPX643

Get a cinema like experience in Full HD with Android TV

Based on unique sealed LED engine, the NeoPix Ultra 2^{TV} projector is not only elegant, but has been muscled and tuned to deliver 75% more brightness than Ultra². With Android TV, your favorite content is always front and center. So whether you're looking for a new show on Netflix, Hulu or Disney+ to binge watch or just want to pick up where you left off, you get what you want, when you want it. Just ask the Google Assistant! You can also stream multimedia content from your mobile devices via Wi-Fi screen mirroring or play content directly from any USB stick.

Place it wherever you wish! Keystone, 4 corners correction and digital zoom corrections help eliminate crooked and distorted images for a perfectly proportioned picture even if the device is not in front of the wall.

The stereo speakers will provide a super sound for a total cinematic immersion. It also offers Bluetooth to connect to external speakers
