Advanced Voice Pickup

In noisy environments or during quiet face-to-face conversations, users can translate naturally without raising their voice, avoiding awkward interruptions caused by loud speaking or unrecognized speech.

Bone Conduction Technology

Precise voice pickup through skull vibrations, perfectly isolating from environmental noise.

Dual-Mic Hybrid Pickup

Dual mics enhance speech, while multi-stage algorithms maximize noise reduction.

All-New VoiceFocus Algorithm

Isolates your voice and reduces noise for accurate recognition, even when whispering.

Babel OS 3.0: Faster and More Accurate

Whether in weak overseas networks or cross-border communication scenarios, the system instantly matches the best global engine to ensure stable, lag-free translation; combined with AI-powered polishing, it transforms literal translations into native-like expressions.

Global Nodes. Instant Translation Anywhere.

Global service nodes and intelligent engines enable encrypted, high-speed channels—slashing cross-border latency and ensuring strong connection even on weak networks.

Covering Diverse Languages & Accents.

Online support for 52 languages + 106 accents; offline support for 13 language pairs, effortlessly handling cross-border business communication.

AI Refinement: Natural Expression.

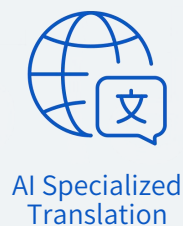

The industry-leading AI polishing module optimizes native text expression for more efficient, professional-grade translation.

BABEL-OS 3.0

All-New AI Features

In high-density cross-border meetings, it precisely tackles complex industry terminology, maintains consistent translations throughout the session with long-term memory, and provides real-time summaries to eliminate manual note-taking — solving mistranslation, inconsistency, and post-meeting review challenges in one place.

Industry-Specific, Precise Matching

Matches specialized vertical industries to slash translation errors. Tap to switch between 5 dedicated profiles—General, Tech & Internet, Manufacturing & Industry, New Energy & Green Tech, and Biotech & Pharma—for authentic industry jargon.

Consistent and Coherent Expression

Syncs history automatically to maintain your translation preferences, ensuring consistent terminology and expression throughout long conversations.

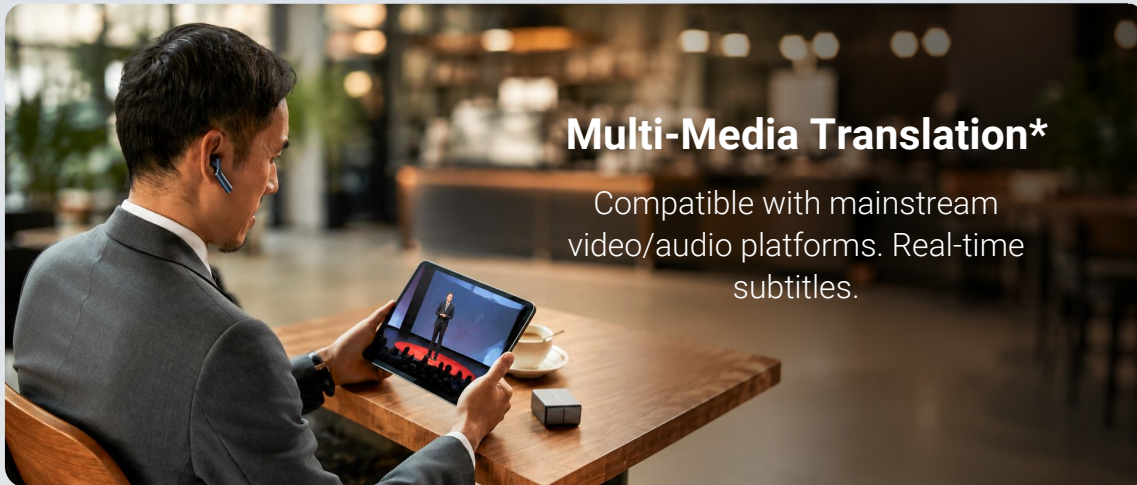

Instant Extraction, Efficient Review

Real-time summaries instantly distill lengthy meetings, ensuring you capture high-value insights during global business calls.

*AI Features are optional and not included as standard.

4 Modes for All-Day Communication

From unexpected overseas calls in the morning, cross-border Zoom meetings in the afternoon, face-to-face client negotiations, to evening industry summit listening sessions — one pair of W4 Plus handles it all, perfectly covering all your business communication needs around the clock, with AI Live Summary and transcript export for effortless record-keeping.

* Multi-Media Translation and Voice Call Translation are optional features, not included as standard.

Global Business. Global Life.

Business Communication

Designed for decision-makers and business elites, perfectly suited for face-to-face negotiations, industry seminars, and keynote presentations.

Borderless Collaboration

Built for remote work and cross-border teams, efficiently supporting global client connections and remote video conferences.

Global Lifestyle

Built for global families and travelers. Stay deeply connected across cultures.

Continuous OTA Updates

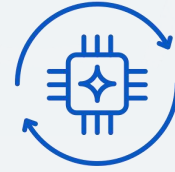

All feature updates, translation engine optimizations, and global language library expansions after product launch are delivered to users free of charge via OTA remote technology. Your device capabilities will automatically grow with our technological advancements, always maintaining industry-leading performance.

What are the differences between W4 and W4 Plus?

The W4 Plus features upgrades in both technology and functionality. It is powered by our all-new Babel OS 3.0 system and innovative VoiceFocus algorithm, combined with Bone Conduction Technology for outstanding noise isolation and AI-refined translation. Additionally, the W4 Plus offers optional Voice Call Translation, Multi-Media Translation, and advanced AI Features.

Should I choose the W4 Plus or the W4 Plus Subscription Version?

If you are a heavy user and want to permanently unlock all premium AI features, we recommend the W4 Plus. For everyday light usage, the Subscription Version is sufficient — and if your needs change later, you can purchase a subscription at any time.

Do I have to purchase a subscription to use the W4 Plus Subscription Version?

No. The product comes with fully built-in basic translation features that meet daily needs. Core features like Voice Call Translation, Multi-Media Translation, and advanced AI Features all come with a 7-day free trial, which will auto-renew after the trial period. You can cancel anytime — try before you decide.

THANK YOU
